(J) Academic Programs
20 USCA 1092
Santa Fe College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award Associate and Baccalaureate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Santa Fe College. To find out more about the college's accreditation status, visit the SACS website at http://www.sacscoc.org/ and type in Santa Fe College in the Search by Institution Name or Keyword search box.

Information regarding specialized accrediting bodies for the College’s AS, AAS and vocational certificate programs may be found at http://www.sfcollege.edu/about/index.php?section=accreditation.

(V) Institutional Policies Regarding Vaccinations
Santa Fe College provides a Student Health Care Center where students can receive health information and immunizations. Visit their website at http://www.sfcollege.edu/student/health. Although the college does not have vaccine requirements for general education students enrolling at the college, immunizations are required for all Associate of Science (AS) degree and vocational certificate (VC) programs in the Health Sciences. As stated in the AS and VC program information packets:

Immunization Advisory: Immunizations are required in order to participate in clinical education. Individuals with allergies to required immunizations should see expert advice from their health care provider so that they may receive information to make an informed decision regarding their exposure to infectious diseases in the health care field. A statement from the student's health care provider noting that the student may proceed through the program with no limitations will be required of all students declaring an immunization allergy.

Required immunizations include:

- **Flu Shot**: An annual flu shot received each fall for the duration of the program
- **Measles, Mumps and Rubella**: Either a year of birth prior to 1957 OR a positive rubella titer AND a positive rubeola titer OR two MMR vaccines at least 4 weeks apart
- **Varicella (Chicken Pox)**: Two (2) varicella at least four (4) weeks apart OR one (1) positive titer
- **Hepatitis B**: Either a positive hepatitis B titer OR three hepatitis B vaccines with the 2nd at least four (4) weeks after the 1st and the 3rd vaccine at least four (4) months after the 1st
- **Tetanus**: A Tetanus booster within the last ten years

In addition, an annual Tuberculosis (TB) test is required for all students in Health Science programs. Students have 3 options to meet requirements: a) negative PPD; b) if positive PPD, negative chest x-ray; c) negative interferon-gamma release assay (QFT or T-spot) blood test

For more information, consult the information page for students selected to health science programs at: http://www.sfcollege.edu/healthsciences/index.php?section=Students_Selected_to_Programs
