To determine your exam time if your class meeting time is not represented in the Exam Schedule grid above AND the class does not have a common final, find the class meeting time on the grid that your class beginning-time falls within. The corresponding exam period for that class will be your scheduled exam time. Instructors will provide date and time of final exam.

"B" session courses will use the grid presented above and can find final exam times by finding the class meeting time on the grid that your class beginning time falls within.

"A" session courses will have final exams scheduled on Oct 9 - Oct 10. Time and location will be announced during class.
