Renewal Agreement with University of Florida - Student Health Center

408.1705, 07-08

The attached contract is a renewal of the ongoing collaboration between the University of Florida (UF) Student Health Care Center and Santa Fe Community College (SFCC) Student Life program to provide health care information and education to SFCC students. As in last year's agreement, UF provides health care staff, medical supplies and equipment, and supervision of personnel. SFCC provides the physical facility and administrative equipment and support.

The overall contract value is \$105,000.00. This represents a reduction of \$41,888.00 from last year's agreement. The new agreement continues to provide student access to a registered nurse on a full-time basis and to a nurse practitioner 16 hours per week. Substantial changes to the contract include the elimination of health services for student athletes and the part-time health educator, and a simplification in the "payment of funds" section (2.02) as recommended by the Office for Finance. The 2008-2009 athletic services will be provided for in a forthcoming contract at no cost to Santa Fe Community College. The services provided by the health educator will be provided by the new Student Life Graduate Assistant for Wellness Programming.

The facility is located in S-120 and does NOT provide emergency care.

The term of this agreement is July 1, 2008, through June 30, 2009.

Articulated Acceleration/Early Admissions Agreement with School Board of
Citrus County

408.1707, 07-08

This agreement allows students from Citrus County who are early admissions/academic dual enrolled students at Santa Fe to take college courses that are creditable toward a high school diploma and an associate degree. This agreement is essentially the same as other early admissions agreements; however, a section has been added that outlines the plan for students who earn D or F grades. The agreement is effective June 11, 2008, and will remain in effect unless either party notifies the other of their desire to terminate it.

Student Support Services -- Grant

409.1702, 07-08

The purpose of this project is to provide supplementary support services to low-income, first-generation, or disabled college students in order to increase student success as measured by retention, graduation, and transfer rates. Individual counseling, tutoring, and other extensive work in the basic academic subjects (mathematics, reading, and writing) will be the substance of the program. An additional part of the program includes a 2-year/4-year initiative section, the purpose of which is to assist Santa Fe Community College project students in securing admission to and financial assistance for enrollment in four-year institutions of higher education. This is year four of a five-year project. This project will serve approximately 200 students per year.

The amount of funds requested from the US Department of Education, Office of Postsecondary Education, is \$267,986, with an in-kind match of \$21,956 from Santa Fe Community College

Duration of this project is September 1, 2008, through August 31, 2009.

Carl D. Perkins Postsecondary Rural and Sparsely Populated -- Grant

409.1705, 07-08

The purpose of this project is to more fully develop the academic and career and technical skills of postsecondary rural students in Bradford County who elect to enroll in career and technical education programs with special emphasis on information technology and distance learning. The purchase of two SMART boards, a camcorder, symposium, and digital presenter will update technologies used at the Andrews and Bradford Union Area Career Technical centers. The purchase of an auxiliary camera will improve use of the interactive television room at the Andrews Center for distance learning. Printing and advertising funds will be used to recruit postsecondary students into career and technical programs in Bradford County. Educational materials will assist the centers in Bradford County with needed programmatic materials. The Bradford Union Area Career Technical Center staff will also participate in professional development activities to expand their skills and to learn about the latest trends in career and technical education. Approximately 500 students will benefit from this project.

The amount of funds requested from the State of Florida, Department of Education, Division of Community Colleges and Workforce Education, is \$20,104, with no matching funds from Santa Fe Community College.

Carl D. Perkins Career and Technical Education Postsecondary, Section
132 -- Grant

409.1706, 07-08

The purpose of this project is to develop more fully the academic and career and technical skills of postsecondary education students who elect to enroll in career and technical education programs. This project provides assistance for student attainment of challenging state-established technical skills proficiencies and attainment of an industry-recognized credential, postsecondary degree, or certificate. Retention in or transfer to another two- or four-year postsecondary institution, along with placement in postsecondary education, employment, and/or military service will be emphasized. Another focus involves enrollment in and completion of CTE programs that lead to employment in non-traditional fields. Other special populations will also be served. The use of technology and contextual, integrated curriculum will be expanded. Connections between secondary and postsecondary education systems will be expanded. Business and industry partnerships will be incorporated. Approximately 4,000 students will be served.

The amount of funds requested from the State of Florida, Department of Education, Division of Community Colleges and Workforce Education, is \$563,972, with no matching funds from Santa Fe Community College.

Renewable Energy Program (Solar) - Budget

412.1035, 07-08

Project Description:

Nearly a year ago Santa Fe Facilities Services formed a solar energy workgroup comprised of internal staff, external engineers, and representatives from the college's utility provider. This project is the culmination of the analysis of several solar/thermal applications on the Northwest Campus. It is being designed to off-set the college's dependency on natural gas as a mean of producing heating hot water through the use of solar energy. The use of natural gas for the production of heating hot water is our most direct impact on emissions.

Architect/engineer	Affiliated Engineer, Inc.
Contractor/construction manager	To be determined
Uniform building inspector	In-house
Estimated project budget	\$447,775.00
Source of funds	Capital Improvement Fee

Project Status:

This project will be designed in conjunction with and based on data gained from an existing project to install solar/thermal as the primary source of energy for the domestic hot water at the Northwest Campus gymnasium. Staff is requesting the approval of the project budget in the amount of \$447,775.00.

New Rule 2.11: Student Loan Practices Code of Conduct

410.414, 07-08

There has been nationwide attention over the past year on the conflicts between higher education institutions and student loan companies. A number of institutions have paid significant fines and entered into settlement agreements through which they agree to prohibit the institution and its employees from taking gifts in exchange for providing advantages to lenders.

As requested by Florida's Attorney General (AG) and the Chancellor for the Florida Department of Education (DOE), the college proposes the adoption of the attached Student Loan Practices Code of Conduct prepared by DOE and approved by the AG. The rule has been examined carefully by various college constituencies, including the Financial Aid Office.

Board Action Requested:

Approval

College Goal: Resources - Develop, obtain, and allocate the necessary resources to implement the college's mission.

Amended Rule 6.14: Facilities Construction Contracts

410.415, 07-08

Rule 6.14 has been modified to designate the college president to execute change orders in the name of the board when an item or related group of items adds less than \$50,000 to the contracted cost of construction or when an item results in a deductive change or savings. The board shall approve and execute all other change orders. All change orders shall be reported to the board no later than the time of project close-out. In addition, the rule authorizes the college to establish procedures for prequalification of contractors, which is a statutory mandate.

Board Action Requested:

Approval

College Goal: Resources - Develop, obtain, and allocate the necessary resources to implement the college's mission

Amended Rule 7.11: Fees

410.416, 07-08

The amendment to Rule 7.11 is presented for approval subject to final approval by the Governor. The fees will be effective with the beginning of fall term registration.

In order to avoid the delay of registration for fall term 2008 courses, should the standard fees be altered from the increase assumption contained herein, the college is authorized to revise resident and non-resident tuition and associated additional fees at a percentage increase consistent with the Chancellor of Community Colleges operating budget preparation memorandum.

Board Action Requested:

Approval

College Goal: Student Affairs - Provide research-based learner-centered program of services that supports access and student engagement from matriculation to goal attainment.

Amended Rule 7.23: Student Conduct Code

410.417, 07-08

Article III of the Student Conduct Code entitled "Prohibited Conduct" lists a number of activities that are subject to disciplinary sanction, including possession of firearms, explosives, destructive devices, other weapons, or dangerous chemicals on college premises. In an effort to further enhance the safety of the college community, this amendment adds a new violation to the Student Conduct Code, to wit: the failure to promptly report possession of these weapons on the college premises. This should increase accountability and educate all students, faculty, and staff that we must all work together to maintain the safety of our campus environment. The remainder of the rule remains unchanged with the exception of the effective date, which is June 25, 2008.

Board Action Requested:

Approval

College Goal: Resources - Develop, obtain, and allocate the necessary resources to implement the college's mission.

Colonel Harry M. Hatcher, Jr., Property Survey 08-08

200.736, 07-08

Below and on the attached pages are requests from the various custodians to remove property from their inventory for the reasons indicated. The college has a Property Survey Committee composed of representatives from around the college who review the departmental requests before they are presented to the board for approval.

The Property Survey Committee met on June 3, 2008, to consider departmental requests to be relieved from inventory accountability. The committee members sent their approvals that the following requests be accepted and recommend board approval to remove the items listed below from the active property control inventory records. A detailed list of all items from each category is attached.

Notes

Stolen Property are items that have been reported to the SFCC Police Department as stolen.

Worn-Out Equipment with Salvageable Parts are items from which parts will be taken before the items are discarded.

Worn-Out Equipment with No Salvageable Parts are items that are no longer in usable condition and are not cost-effective to repair.

Surplus Property is generally offered to Alachua and Bradford counties schools first. If the counties are not interested in these items, they will be offered to other non-profit organizations that have requested them. Items that are not requested will then be sold at a surplus auction.

Trade-Ins are items that have been traded in on new equipment.

Transfers are lab computers replaced through the PC replacement plan that are to be transferred to Alachua and Bradford counties schools, sold, or scrapped.

Acquisition Value represents the college's acquisition cost, NOT the current value of the items. The college depreciates and capitalizes items costing \$5,000 or greater. Items that cost greater than \$1,000 but less than \$5,000 are not depreciated or capitalized. Instead they are tracked for inventory purposes ONLY. The present value of most of the items less than \$5,000 listed here is substantially lower than the amount indicated.

Approval to Execute Purchasing Card Agreement with Compass Bank

209.161, 07-08

The college currently partners with Compass Bank for treasury management and merchant and credit card services. Compass Bank recently began offering a purchasing card program. College staff has reviewed this new service and recommends entering into an agreement with Compass Bank for purchasing card services. There will be no fees assessed to the college in association with this service. In addition, the service will include a monthly tiered rebate schedule based on a minimum usage of \$58,333. The recommended term of the contract, to be consistent with the Treasury Management Services Agreement, is to be July 1, 2008, through September 30, 2012, with an option to renew for a five-year period contingent upon satisfactory performance by the bank.

The board is requested to authorize Vice President for Finance and ITS Ginger Gibson and other appropriate college staff to complete contract negotiations.

Credit and Postsecondary Adult Vocational Lab Fee Schedule for 2008-2009

301.111, 07-08

The attached credit and postsecondary adult vocational lab fee schedule is to be effective for the 2008-2009 academic year, beginning fall term 2008.

Methodology for Requesting and Assessing Laboratory Fees

Florida Statutes 1009.22 (9) *Workforce development postsecondary student fees* and 1009.23 (12) *Community college student fees* allow the assessment of user fees. State Board Rule 6A-14.054 (11) provides that fees may be established for instructional and non-instructional services that incur unusual costs. These fees shall not exceed the cost of the services provided and shall only be charged to persons receiving the service, or persons for whom the services were designed. At Santa Fe, laboratory fees are assessed to students who are enrolled in classes that, because of their nature, require special funding not provided by regular tuition. Examples of items that would fall within the college's definition of "unusual costs" include but are not limited to the following:

- Specialized instructional software
- Specialized instructional equipment
- Equipment and software maintenance agreements
- Learning Management System costs
- Substantial photocopying
- Tutors, student assistants, and lab assistants
- Pass-through costs from third parties
- Instructional videos or tapes
- Instructor certification programs and required continuing education
- Liability insurance
- Hazardous materials-related charges
- Differential faculty pay when market adjustment is necessary

Fees are reviewed in academic departments on a rolling three year cycle with exceptions being made for fees associated with new courses or with substantial curriculum changes in existing courses. The college review cycle by academic department is as follows:

YEAR 1	YEAR 2	YEAR 3
Academic Foundations	English	Social & Behavioral Sciences
Information Technology Education	Institute of Public Safety	Business Programs
Mathematics	Natural Sciences	Sciences for Health Programs
Nursing Programs	Cardiovascular Technology and Sonography	Radiologic Programs
Humanities & Foreign Languages	Visual & Performing Arts	Library
Respiratory Care	Dental Programs	Construction & Technical Programs
Student Development		

Fee requests or changes are initiated by the department's chair or director, and submitted on the attached form to the Office of the Provost and Vice President for Academic Affairs for review **at least 45 days** in advance of the college's June District Board of Trustees' meeting. If approved by the Provost, the lab fee form is forwarded to the Coordinator for Curriculum and Scheduling. The coordinator compiles the complete list of fees for the upcoming academic year and submits the list to the District Board of Trustees at the June meeting for approval. All new and changed fees become effective with the fall term.

Board Action Requested:

Approval

College Goal: Workforce Development - Provide student-centered workforce programs in collaboration with local employers and economic development agencies.

Amendment #1 to Lease Agreement with the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida - Institute of Public Safety 408.1707, 07-08

This amendment with Bureau of Public Land Administration will add just over 100 acres to the existing 60 acres at the Institute of Public Safety. The additional land is intended for expansion of public safety training in the future and as a buffer for IPS firearms ranges. There are no additional costs for this amendment to the existing IPS lease with the state.

At this time, the college does not plan on expending funds for the development of this property beyond seeking land use changes and related items to the Alachua County Master Development Plan. Facility Services has completed a phase one and two environmental study of the property being acquired under this amendment.

Board Action Requested:

Approval

College Goal: Educational Programs - Provide learning opportunities and academic support to ensure the highest levels of academic performance.

Revised Articulation Agreement with Embry-Riddle Aeronautical University

408.1708, 07-08

This articulation agreement with Embry-Riddle Aeronautical University (ERAU) replaces the agreement entered into in October 2004. As with the former agreement, it facilitates the transfer of Santa Fe students to ERAU with a minimal loss, if any, of credits, and assures that courses completed at Santa Fe will satisfy specific degree requirements for the Bachelor of Science degree in Aeronautical Science - Airline Pilot Specialty with Multi-Engine Flight Track at ERAU.

This is a one-year agreement, commencing July 1, 2008, with automatic one-year renewals. Should either party wish to terminate the agreement upon 90 days' written notice, students already enrolled in either institution's program will be allowed to complete the program and receive the B.S. degree as planned.

College Goal: Resources - Develop, obtain, and allocate the necessary resources to implement the college's mission.

Title III Strengthening Institutions Program: *Improving Student Success Through a Transformational Math Redesign Program -- Grant*

409.1712, 07-08

The purpose of this project is to increase student success, retention, and graduation rates by developing a comprehensive math redesign program that includes assessment, placement, and mandatory math sequencing registration, course redesign, and professional development. Five math courses will be redesigned based on two models developed by the National Center for Academic Transformation. A math emporium will be developed and expanded each year during the five-year project. Grant funds will be used to develop the math emporium, programming for the math sequencing system, consultants for professional development and evaluation, travel, and faculty stipends/release for course redesign. Nearly 7,000 students will benefit each semester after full implementation in year five. This is year one of a five-year project.

The amount of funds requested from the US Department of Education, Office of Postsecondary Education, for year one is \$400,000, with an in-kind match of \$10,755 and a cash match of \$590,000. Total funding for the five-year project is \$1,996,099.

Duration of this project is October 1, 2008, through September 30, 2009.

Operating budget impact: Funds from existing college budget for year one. The new computers will be incorporated into the college's replacement plan after three years.

Board Action Requested:

Approval of grant. Upon legal review and approval, the president or his designee, Charles W. Clemons, Sr., Vice President for Development, is authorized to execute any agreements and related documents associated with this grant.

National Science Foundation: *Modernizing the Physics Laboratories at Santa Fe Community College* -- Grant 409.1713, 07-08

The purpose of this project is to modernize the laboratory component of the physics courses offered at Santa Fe Community College by implementing interactive-engagement activities based on research. This project will build on earlier reforms. The college has already successfully implemented changes in the lecture component of its physics courses that have resulted in improved student learning. Modernizing the laboratory component will lead to a more coherent course offering and will result in a deeper student understanding of fundamental concepts of physics and improved laboratory skills. Grant funds will be used to purchase equipment, develop lab-based courses, provide for professional development and dissemination, and for internal and external evaluation of student improvement learning outcomes. Approximately 900 students will benefit each year. This is year one of a three-year project.

The amount of funds requested from the National Science Foundation for year one is \$90,346, with no matching funds from Santa Fe Community College. Total funding for the three-year project is \$149,760.

Duration of this project is January 6, 2009, through January 5, 2010. The computers will be included in the PC replacement plan after three years.

Operating budget impact: None

Board Action Requested:

Approval of grant. Upon legal review and approval, the president or his designee, Charles W. Clemons, Sr., Vice President for Development, is authorized to execute any agreements and related documents associated with this grant.

College Goal: Resources - Develop, obtain, and allocate the necessary resources to implement the college's mission.

Displaced Homemakers Program: Lydia B. Stokes Foundation -- Grant

409.1714, 07-08

The purpose of this project is to provide general operating support for the program which assists, without charge, eligible displaced homemakers over 35 years of age who have lost financial support and have been unable to secure adequate employment in Alachua and the surrounding counties in the North Central Florida area. Services include job counseling, job training and placement, financial management, outreach and information, and educational exploration. This comprehensive program is designed to assist the individual toward independence and economic security. Approximately 150 individuals are served each year through this program. Grant funds will be used to support participant needs, which may include tuition, books, childcare, or transportation.

The amount of funds requested from the Lydia B. Stokes Foundation is \$6,000, with no matching funds from Santa Fe Community College.

Duration of this project is July 1, 2008, through June 30, 2009.

Operating budget impact: None

Board Action Requested:

Approval of grant. Upon legal review and approval, the president or his designee, Charles W. Clemons, Sr., Vice President for Development, is authorized to execute any agreements and related documents associated with this grant.
