District Board of Trustees

Minutes of Board Meeting of July 21, 2009
Wattenbarger Student Services Building, Gainesville, Florida

Members present: Winston J. Bradley, Glenna F. Brashear, Robert C. Hudson,
Bessie G. Jackson, Arley W. McRae, G. Thomas Mallini,
Richard C. Solze, Jr.,

Member absent: Evelyn T. Womack

Vice Chair Bessie G. Jackson called the regular meeting of the District Board of Trustees of Santa Fe College to order at 4 p.m. in the Wattenbarger Student Services building in Gainesville, Florida, followed by the Pledge of Allegiance to the Flag.

Action was taken on the agenda items as indicated on the attached summary sheets.

Vice Chair Jackson noted it has been a pleasure to serve on the board since 1999, and she was looking forward to her next term, which runs until May 2013. She also welcomed two new board members, Colonel Arley W. McRae, representing Bradford County, and Mr. Robert C. Hudson, representing Alachua County.

Today's board presentations were given by Ms. Lee Johnson, President of Florida Association of Community Colleges, and Ms. Barbara Hirshfelder, President of College Senate. Ms. Johnson stated the Florida Association of Community Colleges (FACC) is the professional association for Florida's 28 public community colleges and state colleges. Its mission is to actively promote and democratically represent, support, and serve the individual members and institutions in their endeavors to provide the best comprehensive community college educational system. She added that FACC provides opportunities for professional development, networking, and sharing exemplary/best practices with colleagues from other community colleges. The SFC FACC chapter membership is composed of about 52% of full-time employees, which is average for community colleges. The SFC chapter is active in community service by partnering with the March of Dimes and participating in other community fund raising events. She added that they are preparing to submit the Saints Share Wear thrift store as a Career and Professional Employee Commission exemplary practice to compete for an award at the annual convention in November.

Ms. Hirshfelder reported that the purpose of Senate is to promote cooperation for the improvement of the college and the community. She added that the Senate has established many types of relationships within itself and with other colleges that help promote cooperation within the college community. The Executive Council membership includes faculty and administrative and professional staff. She added that Santa Fe is unique because most colleges only include faculty on the Executive Council. The Executive Council reviews many policies and procedures throughout the year, such as those regarding student withdrawal policy and textbooks. Other standing committees are Curriculum and Salary and Benefits. The curriculum committee has three subcommittees, Behavioral and Liberal Arts, Technology and Applied Sciences, and Bachelor

Degrees. The Salary and Benefits committee also includes representation from Career Service to streamline communication. She noted that, in turn, the Senate sends a representative to Career Service meeting. Also Ms. Hirshfelder mentioned they communicate with Student Government officers regarding various joint interests.

The meeting adjourned at 5:27 p.m.

Amended Rule 7.22: Petitions (Student Registration)

Information Item
410.432, 09-10

The Petitions Committee rule is being revised to reflect several changes to both process and policy. The committee make-up is now outlined in the rule indicating broad college-wide representation to include both faculty and staff from across the campus. Instead of serving as a recommending body and requiring additional approval levels, this committee, through a representative process, will make the decision to approve, deny, or table any petition. Students may appeal a decision of the Petitions Committee to the college Registrar. Subsequent appeals will be directed to the appropriate college vice president. In reviewing the appeal, the Registrar shall also consult with the appropriate department chair or director. The appropriate college vice president shall render a final decision on the appeal if necessary.

Revisions also include the implementation of a statute of limitations for all petition submissions limiting the petition to one year from the semester in question or after graduation from college. The majority of community colleges in Florida have a statute of limitations. This revision will also mirror the existing grade change rule (4.2 Grading System) which also applies to one-year limitation of a grade or symbol change creating a necessary consistency among rules.

Advantages: The current rule allows students to submit petitions without limitations to number of past semesters or even years. In many cases, faculty may not even be here to provide feedback. The limitation legitimizes the process to an appropriate length of time to render a fair and more accurate decision. This may be a substantial cost savings for the college as well. Because all petition results are now sent via the college's new electronic notification system to the student's eSantaFe portal, students can now know the result of the petition in 24 to 48 hours. Such efficiencies provide valuable time to both staff and students.

Discussion: Dr. Portia Taylor, Vice President Student Affairs, noted that the Petitions Committee rule is being revised to reflect several changes to both process and policy. The composition of the committee is composed of broad college-wide representation that includes both faculty and staff. Instead of serving as a recommending body and requiring additional approval levels, this committee will make the decision to approve, deny, or table any petition. Students will have the right to appeal. Revisions also include limiting all petition submissions to one year from the semester in question or after graduation from college.

Discussion: Ms. Lela Elmore, Director Human Resources reviewed items 3.1 through 3.5 individually, explaining that the board has already given authority through the approval of the salary schedule to appoint individuals to the positions within the different areas of the college. Regarding item 3.5, Trustee Bradley inquired if part-time employees fill the positions of those individuals who take a leave of absence. Ms. Elmore replied that each position is a case-by-case decision, noting that in some situations the position does not need to be filled. In response to Trustee McRae's question, Ms. Elmore replied that the average of state college employees is 60% full-time and 40% part-time, depending on the discipline. Dr. Sasser added that his goal was to have Santa Fe at 75%/25%.

Agenda Item 3.1

Mr. Daryl Johnston, Chief of Santa Fe Police Department, reviewed items 3.6 and 3.7. Under item 3.6, Mr. Johnston added that this agreement allows Gainesville Police Department (GPD) to use the Institute of Public Safety (IPS) facilities to conduct their in-service law enforcement training using their training staff assigned to IPS. He also added that Alachua County Sheriff's Department (ASO) collaborates with GPD and other agencies as appropriate to assist IPS in providing all instruction required in Santa Fe Criminal Justice Training programs (both basic and specialized classes). ASO also provides vehicles, tires, vests, and other equipment to IPS that the college would have to pay for otherwise.

Regarding items 3.12 and 3.13, Ms. Ginger Gibson, Vice President for Finance and Information Technology Services, reviewed the items individually. Trustee Hudson inquired as to the total annual operating budget, to which Ms. Gibson replied that it is around \$65 million and noted she would discuss this in more detail during the finance items.

Discussion: Mr. Bill Reese, Associate Vice President Facilities Services, reviewed items 4.1 through 4.6. Regarding item 4.3, Renewable Energy Project (Solar), Mr. Reese noted that following the board's approval in February to allow the college to increase its use of alternative energy to include solar photovoltaic, the college became the only educational institution to be accepted by the Gainesville Regional Utilities feed-in-tariff program. The first such project, the solar array at the Perry Building Construction Institute, has been on-line since May of this year. Mr. Reese noted the college has been receiving rebates totaling between \$600 and \$700 a month and added that the rebates are being used for other projects. The second solar project will be a larger one at the library. Trustee Mallini asked about the annual estimated income generated by the library project. Mr. Reese replied that he would provide that figure, and Dr. Sasser noted he would include it in the Friday Messages.

Renewable Energy Project (Solar) - Guaranteed Maximum Price

412.1053, 09-10

Project Description:

Two years ago, Santa Fe Facilities Services formed a solar energy workgroup comprised of internal staff and students, external engineers, and representatives from the college utility provider. This project is the culmination of the analysis of several solar/thermal applications on the Northwest Campus. It was originally designed to off-set the college's dependency on natural gas as a means of producing heating hot water through the use of solar energy. The use of natural gas for the production of heating hot water is our most direct impact on emissions.

These companies include American Century Services LLC, AXA Equitable, ING, MetLife, AIG Retirement, Lincoln Investments, and TIAA CREF. Pursuant to federal regulations, there must be a plan agreement with each vendor. These standard agreements have been reviewed by our compliance services vendor (TSA Consulting Group Inc.) and college staff.
