The A.S. degree Business Administration – Management provides you with the knowledge and ability to succeed in a small, hometown business or a large, multinational corporation. Students should follow the sample sequence closely; some adjustments may occur due to reduced summer offerings or other circumstances.

* It is strongly suggested that the student consider taking ACG2001 and ACG2011, Principles of Accounting I and II, rather than ACG2021.

**Students must meet with the IDS2941 instructor prior to the beginning of the semester for guidance and approval of the internship; check with the Catherine.Lawton@sfcollge.edu for information regarding appointments.

***Students wanting to pursue the Bachelor of Science degree in Accounting must take these pre-requisite classes.
