<b>Total Hours 9</b>	<b>Total Hours 9</b>	<b>Total Hours 6</b>

**Total SF Semester Hours = 24**

The Healthcare Informatics Specialist certificate prepares students for employment as entry-level data analysts who are capable of acquiring, managing, analyzing data and presenting the data so that better clinical and business decisions can be made.

This certificate is also a great supplement to HIM professionals and other allied healthcare personnel currently employed in healthcare who want to increase their data management and analytic skills.

The content includes medical terminology, health care delivery systems, introduction to health care informatics; electronic health/medical record systems; data management, data analysis, project management skills, ethical and legal concepts, health data content, health care statistics, statistics, and employability skills.

**PRE-REQUISITES mentioned in grid are NOT inclusive. Indicated for advisement and student education purposes ONLY as courses build upon one another. All students are urged to make an appointment to see a Business Programs advisor in C-102 once each semester to ensure that adequate progress towards the degree is being made.** Email the program advisor via [douglas.robertson@sfcollge.edu](mailto:douglas.robertson@sfcollge.edu).
