Alcatel OmniPCX Enterprise
IP Touch 4068
IP Touch 4038
Introduction

Thank you for choosing a telephone from the IP Touch range manufactured by Alcatel.

Your IP Touch digital terminal has a new ergonomic layout for more effective communication.

- A large graphic screen, in conjunction with various keys and the navigator, allows you to make calls, configure and program your telephone,
- a receiver that is pleasant to use: it fits nicely in the hand with a flexible grip section,
- communication is even more convenient using the audio keys (speaker, handsfree),
- using the convenient alphabetic keypad, you can call your parties by name.

How to use this guide

These symbols may be supplemented by small icons or text.

- Actions
  - Lift the receiver.
  - Hang up.

- Keypad
  - Numeric keypad.
  - Alphabetic keypad.
  - Specific key on numeric keypad.

- Navigator
  - Move the navigation key up, down, to the left or to the right.
  - To go back one level (press and release) or to return to the welcome page (press and hold) ; during a conversation, can be used to access the different pages (Menu, Perso, etc.) and to return to the telephone screens.

- Display and display keys
  - Partial view of display.
  - Display key.

- Audio keys
  - Speaker, Handsfree.
  - Adjustment “reduce”.
  - Adjustment “increase”.

- Programmable keys and icons
  - Line key.
  - Icon corresponding to key.

- Other fixed keys
  - Hold and Transfer keys.
  - MENU key.

- Other symbols used
  - Menu: Means that the function is accessible from the Menu page.
  - Perso: Means that the function is accessible from the Perso page.
  - Info: Means that the function is accessible from the Info page.
  - Spec: Means that the function is subject to programming. If necessary, contact your installer.
  - Voice mail access key: Means that the function can be accessed by pressing a programmed key - see Program the keys for the Perso page or the add-on module.

These symbols may be supplemented by small icons or text.

Getting to know your telephone

**Receiver**

- Socket for connecting headphones or a handsfree/speaker unit
- Adjust the tilt of the screen

**Audio keys**

- **END key:** to terminate a call.
- **Handsfree/Speaker Key:** to make or answer a call without lifting the receiver.
  - Lit in handsfree mode or headset mode (short press).
  - Flashing in speaker mode (long press).
- **Intercom/Mute key:**
  - During a call: press this key so your party cannot hear you.
  - Terminal idle: press this key so you can automatically answer a call without lifting the receiver.
- **To adjust the speaker or receiver volume up or down**

**Extension unit**

An extension unit can be fitted to your telephone. This provides additional keys which can be configured as feature keys, line keys, call keys etc. To affix labels: push the holding strip of the unit backwards to you and lift it. Install the label under the keypad, in the housing designed for, and place the keypad back into position.

**Display and display keys**

Contains several lines and pages providing information on calls and the features accessible via the 10 keys associated with the words on the screen.

- **Forward icon:** pressing the key next to this icon allows you to program or change the forward feature.
- **Display keys:** pressing a display key activates the feature shown associated with it on the screen.

**Navigation**

- **OK key:** used to validate your choices and options while programming or configuring.
- **Left-right navigator:** used to move from one page to another.
- **Up-down navigator:** used to scroll through the content of a page.
- **Back/Exit key:** to return to previous menu (short press) or return to first screen (long press); during a conversation, provides access to welcome screens (Menu, Info, ...) and to return to the conversation icon screens.

**Welcome screens**

- **Menu page:** contains all features and applications accessible via the keys associated with the words on the screen.
- **Perso page:** contains call line keys (allowing supervision of calls) and programmable call keys.
- **Info page:** contains information on the telephone and the status of its features: name, telephone number, number of messages, activation of forward feature, appointment reminder, etc.

**Call display**

- **Call in progress or outgoing call.**
- **Incoming call.**

**Call on hold.**

If you get two calls at the same time, you can switch from one call to the other by pressing the display key associated with each call.

**Feature keys and programmable keys**

- **Guide key:** used to obtain information on features of the 'menu' page and to program key of the 'perso' page.
- **Messaging key to access various mail services:**
  - If the key flashes, a new voice message or a new text message has been received.
  - 'Redial' key : To access the 'Redial' function.
  - 'Hold': the call is placed on hold.
  - 'Transfer': transfer the call to another number.
1 Description of the screens

1.1 Welcome screens

- **Menu page**: contains all features and applications accessible via the keys associated with the words on the screen. From this page, it is possible to adjust the ringer volume and screen brightness, program the time of an appointment, lock the terminal, define the default page displayed, configure voice mail, and access telephone functions such as calling back one of the last 10 numbers or intercepting calls.

- **Perso page**: contains call line keys (allowing supervision of calls) and programmable call keys. The up-down navigator is used to access all the direct call keys (apart from those displayed by default). Direct call keys are programmed or modified via the Information key.

- **Info page**: contains information on the telephone and the status of its features: name, telephone number, number of messages, activation of forwarding feature, appointment reminder, etc.

- **Scroll bar**: shows the position on a page.

- **Up-down navigator**: used to scroll through the content of a page.

- **Time and status icon**: Displays the content of the page selected.

- **Date**: Tue 16 Jan 2004

- **Call forwarding icon**: Rotating: forwarding activated. Stationary: no forwarding activated.

- **Left-right navigator**: used to move from one page to another.
Description of the screens

### 1.2 Call management screen

Each tab corresponds to a call, the status of which is symbolized by its icon (in progress, held, arrival of new call). When a call is in progress, use the left-right navigator to look at held or incoming calls.

Use the up-down navigator to display the functions accessible. These functions (transfer, conference, etc.) are directly related to the status of the call consulted. For example, the transfer function will not be available between a call in progress or a held call and an incoming call.

**Back/Exit key:** used to switch from a telephone screen to an application screen. For example, can be used while a call is in progress to look up a number, program an appointment reminder, etc.

Calls can also be managed from the Perso page. While the call is in progress, press the Back/Exit key and display the Perso page. Calls in progress or waiting are displayed on the different line keys. It is then possible to converse with the caller of your choice by pressing the key associated with him.

### 1.3 Application screen

**Application screen:** displays information relevant to programming or configuring the telephone.

**Events screen:** displays events connected to the programming or configuration operations in progress, confirmation, rejection, error, etc.

---

Incoming call presentation screen. This screen is temporarily displayed when a call arrives and shows the name and/or number of the caller.
2 Using your telephone

2.1 Making a call

- dial the number for your call
- lift the receiver
- number required
- handsfree
- number required
- programmable line key
- dial by name
- announcement tends to the "incoming call" icon
- Paul is calling you
- you are in handsfree mode
- press and release to terminate your call
- you are in conversation with the destination number

To make an external call, dial the outside line access code (9) before dialing your party’s number. 9 is the default code for an outside line.

For the attendant, dial ‘0’ (by default).

If the internal or outside number does not reply:
- broadcast a message on the speaker of the free terminal
- request callback to a busy terminal
- send a written message
- send a voice message
- go to next screen

2.2 Answering a call

- lift the receiver
- handsfree
- press the key next to the "incoming call" icon
- you are in conversation with the destination number
- press and release

2.3 Using the telephone in ‘handsfree’ mode

- Terminal idle:
- Paul In conversation 00:23’
- you are in handsfree mode
- you are in conversation with the destination number
- terminate your call

- Call in progress:
- Paul In conversation 00:23’
- you are in conversation with the destination number
- press and release

During a conversation, you can lift the receiver without terminating the call.
2.4 Activating the speaker during a conversation (receiver lifted) - Speaker.

- the speaker key flashes
- you are in conversation with the destination number
- activate speaker (long press)
- the key is no longer lit
- adjust volume (7 levels)
- deactivate speaker (long press)
- press and release the speaker key to switch to handsfree mode (light steady).

2.5 Calling your party by name (company directory)

- enter the name or initials or the surname and first name of your party
- select the type of search you want (last name, last name and first name* or initials*)
- Display of all the parties meeting the search criteria
- display the previous and next names
- press the key associated with the party to call
- modify the search
*Name must be entered in format name/space/first name.

2.6 Make calls via your programmed call keys

- access the 'perso' page
- select the party you want to call from the programmed call keys
- call the selected party

2.7 Calling from the common directory

- Your terminal has access to a common directory of outside numbers.

2.8 Redial

- reach the 'menu' page
- last number redial

2.9 Call back the last caller (whose call was not answered)

- reach the 'menu' page
- call back the last caller
2.10 Requesting automatic callback if internal number is busy

When your caller hangs up, intercom mode remains active.

To deactivate - Terminal idle:

The corresponding LED goes out

2.11 Answering an internal call in intercom mode

You can answer without lifting the receiver. When you receive an internal call, your telephone rings and you are connected directly in handsfree mode. The screen shows the caller’s identity.

To activate - Terminal idle:

The key lights up

You are in conversation with the destination number

To deactivate - Terminal idle:

The key is no longer lit

Resume the conversation

2.12 Sending DTMF signals

During a conversation you sometimes have to send DTMF signals, such as with a voice server, an automated attendant or a remotely consulted answering machine.

The function is automatically cancelled when you hang up.

2.13 Mute, so that your party cannot hear you

You can hear your party but he/she cannot hear you:

When your caller hangs up, intercom mode remains active.

To activate - Terminal idle:

The key lights up

You are in conversation with the destination number

To deactivate - Terminal idle:

The key is no longer lit

Resume the conversation
3.1 Making a second call during a conversation

During a call, you can call a second person (consultation call):

- Other methods for calling a second party
  - Dial the number for your call.
  - Name of second party.
  - To access the ‘Redial’ function (press and hold).
  - Call back on the last 10 number dialled (short press).
  - Programmable line key.

- To cancel your second call and recover the first:

If you make an error, hang up: your telephone will ring and you will recover your first call.

3.2 Answering a second call during a conversation

- A second party is trying to call you:
  - You are in conversation with the destination number.

- Answer call displayed.

- To return to your first caller and end the conversation in progress:

If you make an error, hang up: your telephone will ring and you will recover your first call.

3.3 Switching between calls (Broker call)

During a call, a second call is put on hold.

To alternate between calls:

If you make an error, hang up: your telephone will ring and you will recover your first call.
During a call

3.4 Transferring a call

To transfer your call to another number:

- Press the "transfer" key.
- Dial the number to be called.
- Press to perform the transfer.

Transfer between two outside calls is not generally possible (depends on country concerned and system configuration).

3.5 Three-way conference with internal and/or external correspondents (conference)

During a call, to establish a three-way conference:

- Press the "conference" key.
- Dial the number of second party.
- Press to establish the three-way conference.

Cancel conference and return to first correspondent (if conference is active):

End conference

Hang up on all correspondant (if conference is active):

End conference

After the conference, to leave your two parties talking together:

Transfer

3.6 Talk simultaneously to more than 2 correspondents

You are in a conference call with 2 parties. To add another party to the conference:

- Press "Conference".
- Enter the number of second party.
- Press to establish the three-way conference.

Conference

End conference

Transfer

3.7 Placing a call on hold (HOLD)

- Exclusive hold:
  During a call, you may place the call on hold and recover it later, on the same telephone.

- Common hold:
  To recover your call on any telephone in your system.

You are in conversation with the destination number.

Press "Hold" to recover the call on hold:

Hold

Your call is placed on hold.

Camp on

Your call is placed on hold.

key associated with the 'incoming call' icon
3.8 Placing an outside call on hold (parking)

You can place an outside call on hold and recover the call on another telephone:

- To recover the parked call:
  - Park/retrieve call.
  
  To automatically take the parked call, pick up the handset of the parking destination set.

- To recover the parked call:
  - Park/retrieve call.

You are in conversation with the destination number.

A parking announcement message is displayed on the screen of the parking destination set.

If the parked call is not recovered within a preset time (default value 1 min 30), it is transferred to the attendant.

3.9 Intrusion into an internal conversation

Your party’s line is busy. If the number is not “protected” and if authorised, you can intrude into the call:

Protection against intrusion:

Protection is cancelled when you hang up.

3.10 Adjust audio volume

During a call, to adjust the volume level of the speaker or receiver:

If you are in conversation with the destination number, adjust audio volume.
4.1 Answering a night or a general bell

When the attendant is absent, outside calls to the attendant are indicated by a general bell. To answer:

- From the manager’s or assistant’s telephone:
  
  press programmable key
  
  press the same key to cancel

4.2 Manager/assistant screening

System configuration allows “manager/assistant” groups to be formed, so that the manager’s calls can be directed to one or more secretaries.

- Screenings list

4.3 Individual pick-up

You hear a telephone ringing in an office where no-one can answer. If authorised, you can answer the call on your own telephone.

- If the telephone ringing is in your own pick-up group:

  press programmable key
  
  press the same key to cancel

- If the telephone ringing is not in your pick-up group:

  dial the number of the ringing telephone

The system can be configured to prevent call pick-up on certain telephones.
4.4 Hunting groups

- Hunting group call:
  Certain numbers can form a hunting group and can be called by dialling the group number.

- Temporary exit from your hunting group:
  Certain numbers can form a hunting group and can be called by dialling the group number.

- Return into your group:
  Reach the 'menu' page

Belonging to a group does not affect the management of direct calls. A specific telephone within a group can always be called by using its own number.

4.5 Calling an internal party on his/her pager

The number called does not answer and you know that the person called has a pager:

- Your party can answer from any telephone in the system.

4.6 Answering a call on your pager

A call on your pager can be answered from any telephone within the system.
4.7 Calling a party on his/her speaker

Your internal party does not answer. If authorised, you can remotely activate your party’s phone:

You are connected to the speaker on your party’s phone (if he/she has the handsfree function)

4.8 Sending a written message to an internal correspondent

Enter the number of the terminal to receive the message
Enter the first letters of the last name
Select a predefined message
Select a predefined message to complete
Compose a new message
Complete your message

4.9 Sending a copy of a voice message

The 27 standard messages are shown below:

1. Call me back
2. Call me back tomorrow
3. Call me back at ___ (*)
4. Call back ___ (*)
5. Call the attendant
6. Call the assistant
7. Call back at ___ (*)
8. Use paging
9. Please fetch your fax
10. Please fetch your mail
11. Please cancel your forwarding
12. Visitors are waiting
13. You are expected at reception
14. Meeting at ___ (*)
15. Meeting on ___ (*)
16. Meeting on ___ at ___ (*)
17. Out for a while
18. Absent for the rest of the day
19. Absent, back at ___ (*)
20. Absent, back on ___ at ___ (*)
21. On vacation, back on ___ (*)
22. External meeting
23. External meeting, back on ___ (*)
24. I am in room nr ___ (*)
25. In a meeting - do not disturb
26. At lunch
27. Indisposed

Messages to be completed using numeric keypad

Personal code

Display shows the number of new and old messages

Forward msg

Send mail

Send

Dial the number to be called
Dial by name
Send message
### 4.10 Sending a recorded message to a number/a distribution list

1. Enter your personal code.
2. Record your message.
3. End recording.
4. Dial the number to be called.
5. Send message.
6. End broadcast.

### 4.11 Broadcasting a message on the speakers of a station group

A message not requiring an answer can be broadcast on the speakers within your broadcast group:

1. Enter the number of broadcast group.
2. Speak, you have 20 seconds.
3. The message will only be broadcast on terminals not in use and which have a speaker.
5 Keeping in touch

5.1 Forwarding calls to another number (immediate forwarding)

The number can be your home, portable or car phone, voice message or an internal extension (attendant, etc.).

You can make calls, but only the destination number can call you.

- Forwarding is acknowledged

5.2 Forwarding your calls to your voice message service

- Forwarding is acknowledged

5.3 When you return, review your recorded messages

The light indicates that messages have been received.

- Display shows name of sender, with date, time and ranking of message
- Personal code
- Listen to message
- Erase message
- Call sender of message
- Archive the message
- Terminate consultation

5.4 Forwarding calls to your pager

Callers will thus be able to contact you while you are moving around the company:

- Forwarding is acknowledged

- Press programmable key
5.5 Forwarding your calls from the receiving terminal (“Follow me”)

Remote forward

You wish to receive your calls in your present location:
Use the “follow me” function.

5.6 Applying a selective forwarding

You can forward your primary number and your secondary number or numbers to different sets.

5.7 Cancelling all forwardings

Remote forward

5.8 Cancelling a specific forwarding

Program another type of forwarding, if desired

5.9 Forwarding calls when your line is busy (forward if busy)

Callers will thus be able to contact you while you are moving around the company:
5.10 Do not disturb

You can make your terminal temporarily unavailable for all calls.

Callers wishing to contact you will see the ‘Do Not Disturb’ message displayed on their sets when they try to call.

5.11 Leaving a recorded message for internal callers

You can leave a message on your terminal which will be displayed on the screen of the terminal calling you.

5.12 Consulting written messages

The light indicates that messages have been received.

Call sender of message

Record message

Terminate consultation

Display shows name of sender, with date, time and ranking of message

Select a predefined message to complete

Compose a new message

Complete your message
### 6.1 Charging your calls directly to business accounts

You can charge the cost of your outside calls to business account numbers.

- **reach the 'menu' page**

### 6.2 Finding out the cost of an outside call made for an internal user from your terminal

- **reach the 'menu' page**
7 Programming your telephone

7.1 Initializing your voice mailbox

Light flashes

Enter your personal code, then record your name following the voice guide instructions

Your personal code is used to access your voice mailbox and to lock your telephone.

7.2 Customizing your voice greeting

You can replace the greeting message by a personal message.

7.3 Modify the password for your phone set

reach the 'menu' page

enter new password again to confirm

This password controls access to the programming and terminal locking functions by the user (default password: 0000)

7.4 Modify the password for your voice mailbox

As long as your voice mailbox has not been initialized, the personal code is 1515.
7.5 Adjusting the audio functions

- **Choose the tune:**
  - **Melody**
  - select the melody of your choice
    - (16 tunes)

- **Adjusting the ringer volume:**
  - **Ringing level**
  - select the level of your choice
    - (12 levels)

- **Activate/deactivate silent mode:**
  - **More options**
  - to deactivate
  - to activate

- **Activate/disable meeting mode (progressive ringing):**
  - **More options**
  - to deactivate
  - to activate

- **Activate/deactivate discreet ring mode:**
  - **More options**
  - to deactivate
  - to activate

7.6 Adjusting screen brightness (IP Touch 4038)

- **Adjust ringer volume while a call arrives:**
  - your telephone rings
  - adjusting the ringer volume:

- **Increase or decrease the contrast**

7.7 Selecting the welcome page

This function is used to choose the page displayed by default on the telephone.

- **Select the default page**

---

24
7.8 Selecting language

reach the 'menu' page

enter your personal code

select the language of your choice

7.9 Program the keys for the Perso page or the add-on module

You can program call numbers and functions for the 'Perso' page keys and the add-on module keys.

reach the 'menu' page

press the key you want to program

to program a number

to program a function

To program a number:

- enter the number
- enter the name
- confirm

To program a function:

- follow informations displayed on the screen

7.10 Programming an appointment reminder

You can define the time of a temporary reminder (one in 24 hours) or a permanent reminder (every day at the same time).

reach the 'menu' page

dial the number of the appointment destination set

The 'Appointment programmed' icon is displayed on the welcome page.

- At the programmed time, your telephone rings:

- If your calls are forwarded to another terminal, the forwarding is not applied to the reminder call.

- To cancel your reminder request:

reach the 'menu' page

The 'Appointment programmed' icon disappears from the welcome page.
### 7.11 Identifying the terminal you are on

The number of your telephone is displayed on the 'Info' page.

Access the Info page using the navigator.

### 7.12 Lock / unlock your telephone

Reach the 'menu' page depending the displayed informations, enter your password or confirm your telephone is locked/unlocked.

### 7.13 Configuring the audio jack of your telephone

By default, the audio jack of your telephone can be used to connect a headset, handsfree kit or speaker.

Reach the 'menu' page.

---

### 7.14 Modify the associated number

The associated number can be a phone set number, the voice mail number or the pager number.

Reach the 'menu' page.

Enter your personal code.

Enter the new associated number.

Acceptance of the programming is displayed.

### 7.15 Create, modify or consult your intercom list (max. 10 numbers)

Reach the 'menu' page.

Follow instructions given on display.
Before a Bluetooth® headset can be used, it must be correctly matched to the terminal. Before performing the matching operation, the headset must be in detectable mode*.

* Refer to the user documentation supplied with the headset.

Refer to the user documentation supplied with the headset.
Independently of the legal warranty that covers this appliance, it is guaranteed for 1 year, parts and labour, counting from the date indicated on your invoice. The invoice will be demanded if making a claim under the warranty. The warranty does not however apply in the following cases: in the event of use that does not comply with the instructions given in this user’s manual, faults or damage caused by natural wear, damage resulting from a cause external to the appliance (e.g. impact, fall, exposure to dampness, etc.), noncompliant installation or modifications or repairs carried out by people who are not approved by the manufacturer or retailer.

Warning: never place your telephone in contact with water. To clean your telephone, you may however use a damp soft cloth. Never use solvents (trichlorethylene, acetone, etc.) which may damage the plastic parts of your telephone. Never spray it with cleaning products. Earpiece may retain magnetic objects.

The wording is not contractual and may be subject to change. Some functions of your telephone are controlled by a software key and the configuration of the unit.

Declaration of compliance
We, Alcatel Business Systems, hereby declare that we assume the Alcatel Advanced Reflexes product to be compliant with the essential requirements of Directive 1999/5/CE of the European Parliament and Council. A copy of the original of this declaration of compliance can be obtained from your installer.

IP Touch 4068
This device complies with Part 15 of FCC rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications made to this equipment not expressly approved by Alcatel Business Systems may void the FCC authorization to operate this equipment.

The device is designed and manufactured not to exceed the emission limits for exposure to radio frequency energy in SAR (Specific Absorption Rate) set by the FCC. Alcatel Business Systems, in keeping with its policy of constant product improvement for the customer, reserves the right to modify product specifications without prior notice.
