## Student Survey

TEST DATE: Spring 2017

### STUDENT TESTIMONIALS:

"This is awesome. Please keep!"

"It is very easy to use. The support center walked me through the process. Since I have severe test anxiety, I was able to be comfortable and relax."

"This system worked great! I highly recommend it."

"Honorlock is so much better and faster. Very efficient, clear, and easy to use. I love that they use Chrome as well."

"I love how easy and convenient it is. You don't have to set up much unlike other programs, no trying to name names. They quickly responded to my issue at 3 am and were super friendly!"

"Easy to use and fair."

(...) was too demanding for my internet service causing it to crash thus being unusable. Honorlock install was 2 clicks of your mouse to install. To access your test it required a personal photo, photo of your ID, and a scan of your work space. All in all, only takes about 2 minutes including downloading the software to start taking your test. Simple and effective, no need for anything else."
